

# Triangle and Rectangle House

Directions:

- Using the template, cut the correct number of rectangles and triangles out of construction paper.
- Explain to the child that he/she is going to make a house with these two shapes. Ask him/her what the triangle could be on the house.
- Give the shapes to the child and ask them to create a house with these shapes. Only assist when needed.
- Once put together, glue on a piece of construction paper.
